

## OUR HISTORY

In October 2020, the National Constituent Assembly approved the **Constitutional Anti-Blockade Law for the national development and the guarantee of human rights**.

In its Article 16, the Law ordered the creation of an observatory on unilateral coercive measures (MCU), attached to the International Center for Productive Investment (CIIP).

## ¿WHAT DO WE DO?

### INVESTIGATE

We document and systematize all actions and MCU against Venezuela. We generate scientific information to support public policies.

### STATISTICS

We generate statistical data on the MCU application process, the economy and the resistance processes of the State and the people.

### COMMUNICATE

We provide information among the Venezuelan people about the illegal blockade against our country.

# REPORT 2014-2022

Venezuela has been the subject of 763 MCU, in conjunction with two laws of the U.S. Congress and seven Executive Orders that have impacted the nation's revenues, public finances, oil industry, and foreign trade, including access to the U.S. market, foreign trade, food, medicine, fuel and essential services for our people.

The MCU have severely impacted the functioning of the economy and constitute an unprecedented event in the relationship between States in our continent.

## FROM BLOCKAGE TO RECOVERY

### ECONOMIC PROGRAM

Since August 2018, **President Nicolás Maduro**, has directed a program of stabilization, recovery and economic progress that has confronted the multiform aggression and has begun the process of implementing a new productive model based on the country's capabilities, resources and talent.

### ANTI-BLOCKADE LAW

Initiative of President Nicolás Maduro, taking a step towards boosting productive national and international investment.

### BOLIVARIAN DIPLOMACY

Venezuela fights in all scenarios for its right to development. The United Nations has demanded the lifting of the MCU and Venezuela is promoting the Group of Countries in defense of the United Nations Charter. In 2020 Venezuela sued the United States in the International Criminal Court for crimes against humanity.

## ONLINE INFORMATION

The website and the Antiblocking Statistical System offer interesting information and updated data on MCU and the national and international economy. They are tools for the formation of a new economic culture.

### Venezuelan Anti-Blockade Observatory

The Venezuelan economy, subjected to an illegal blockade against its public finances, its oil industry and its foreign trade for 8 years, began to grow in 2021. The application of an intelligent economic program, the progressive recovery of oil production and anti-blockade measures to promote national and foreign investment have created a favorable environment that places the country with growth prospects of 8%, the highest in South America in 2022 according to ECLAC. The Venezuelan Anti-Blockade Observatory monitors economic developments and reports on the Venezuelan productive effort, on the way to recovering its well-being.
